KOLDIOXIDFIXERANDE FOTOSYNTES

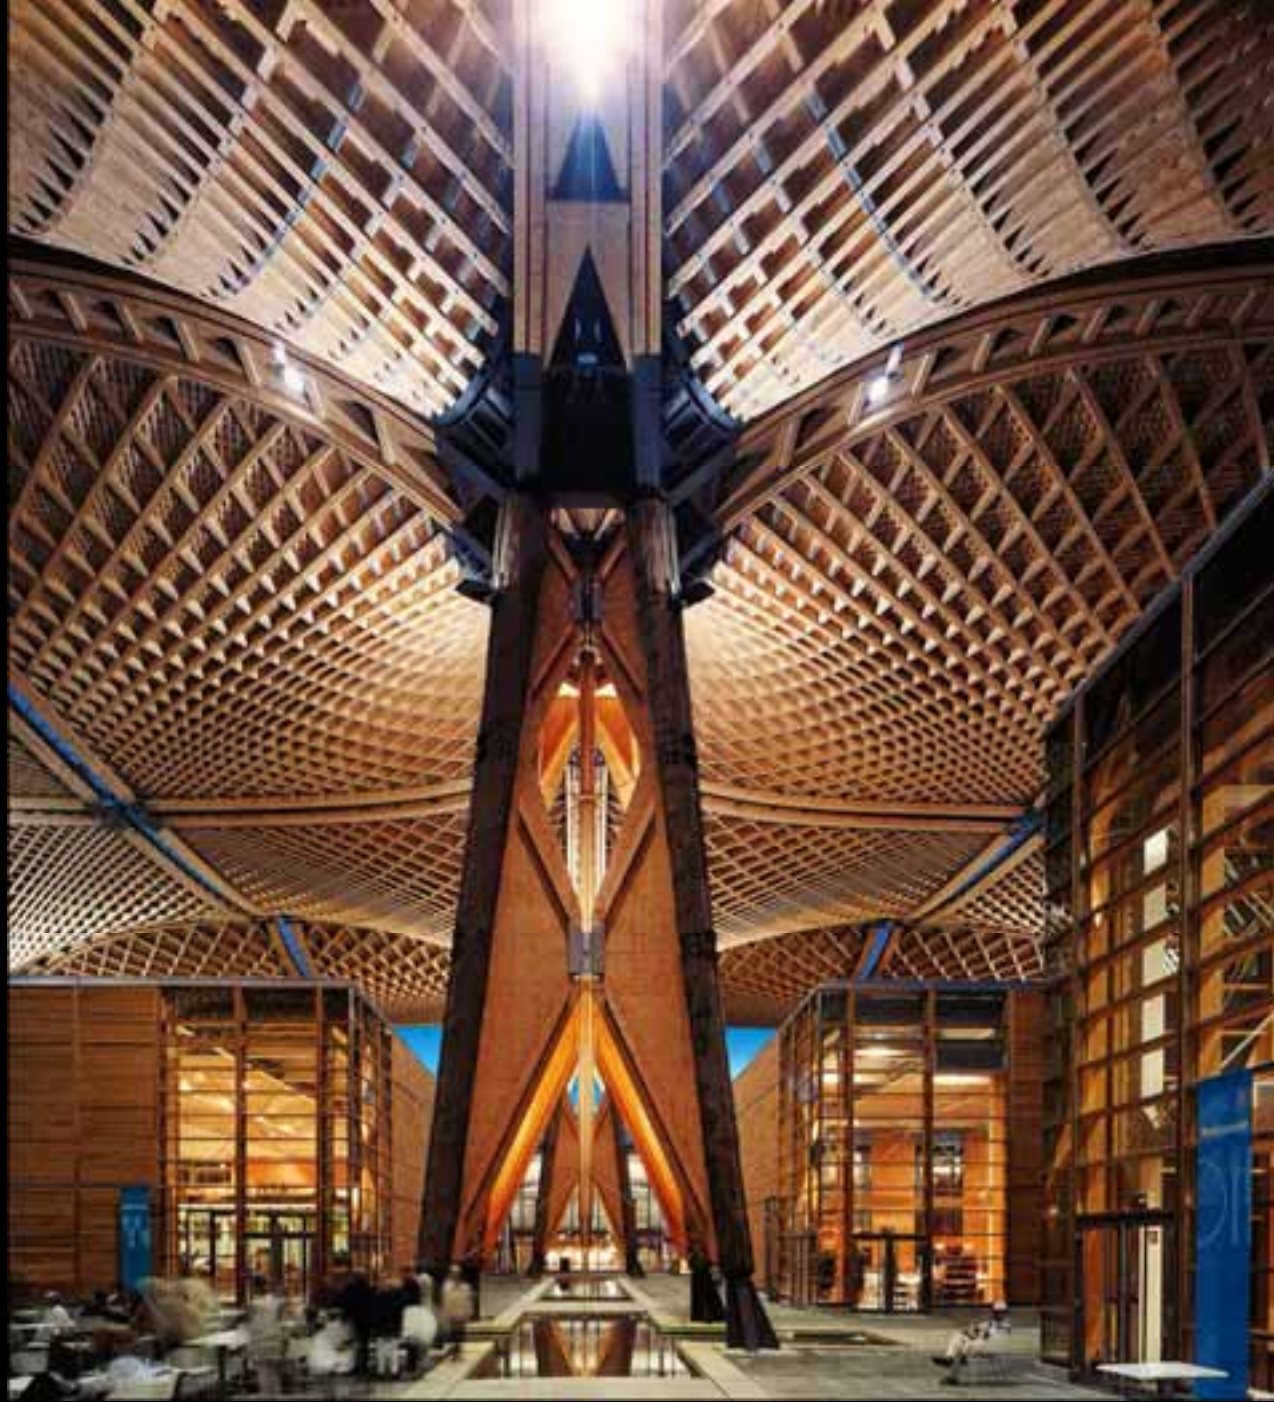

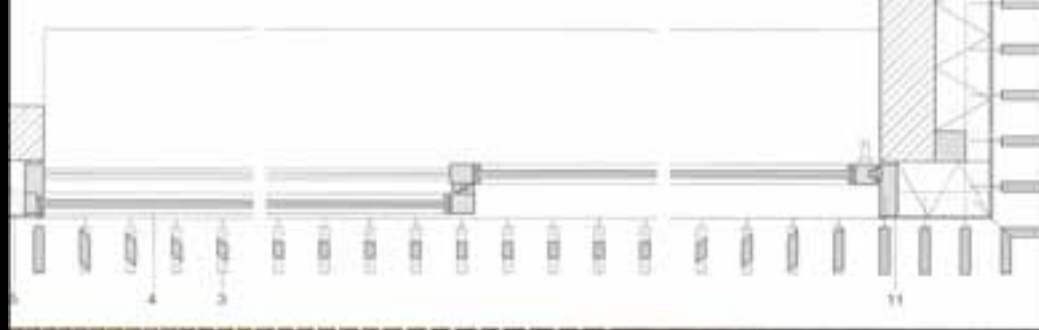

I skydd av stadsvären utbreddes sig under många århundraden Beijings låga bostadshus runt sina gårdar. Utåt vände de en stram fasad – en slät mur med en port – därinnanför öppnade sig en fridfull gård, med träd och blommor. I stadens mitt det kejserliga palatset. Högre än kejsaren fick ingen bygga.

In order to build a Swedish bathroom on site the following

professionals are

- painter

needed:

founder

- tiler

- ventilator

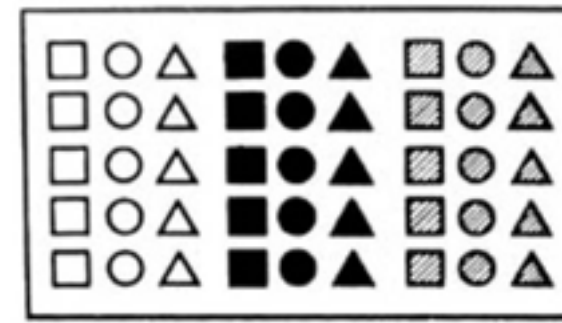

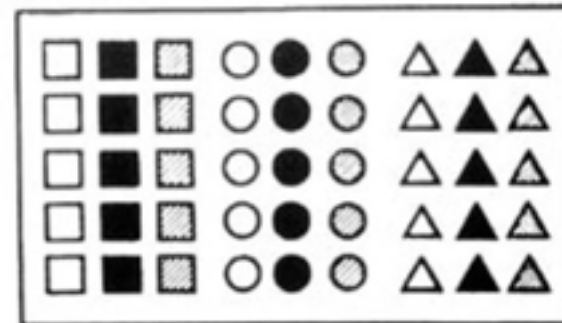

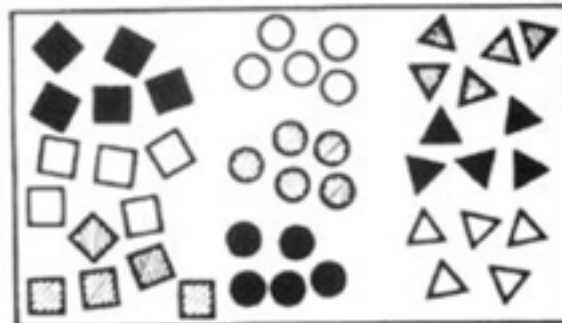

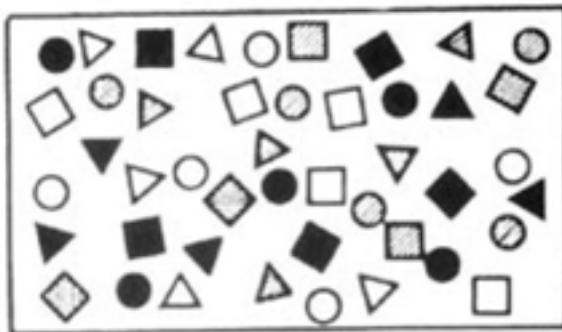

- cabinet

maker

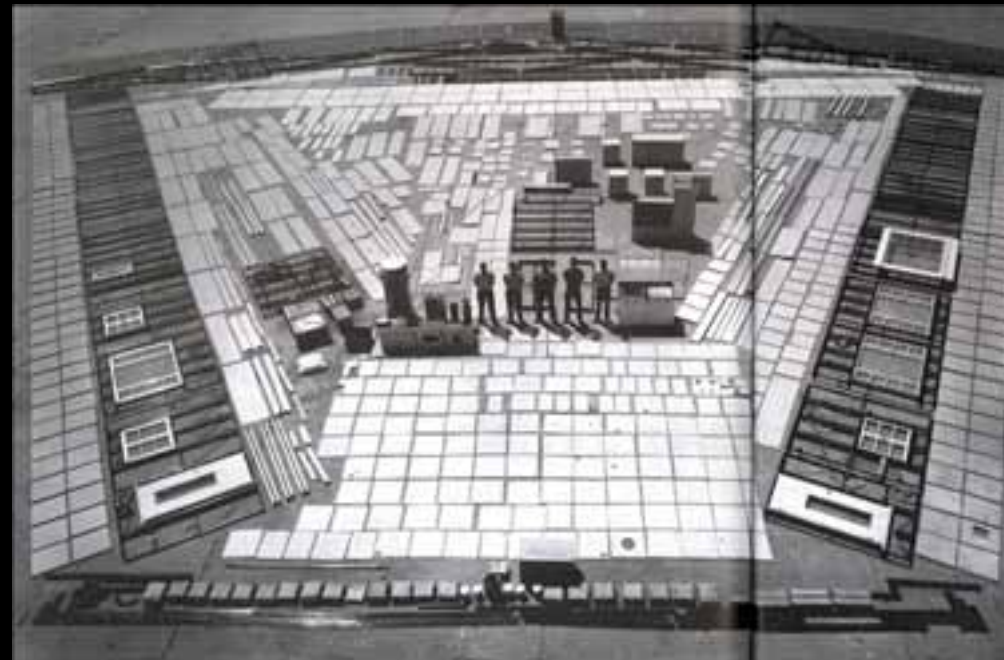

- carpenter

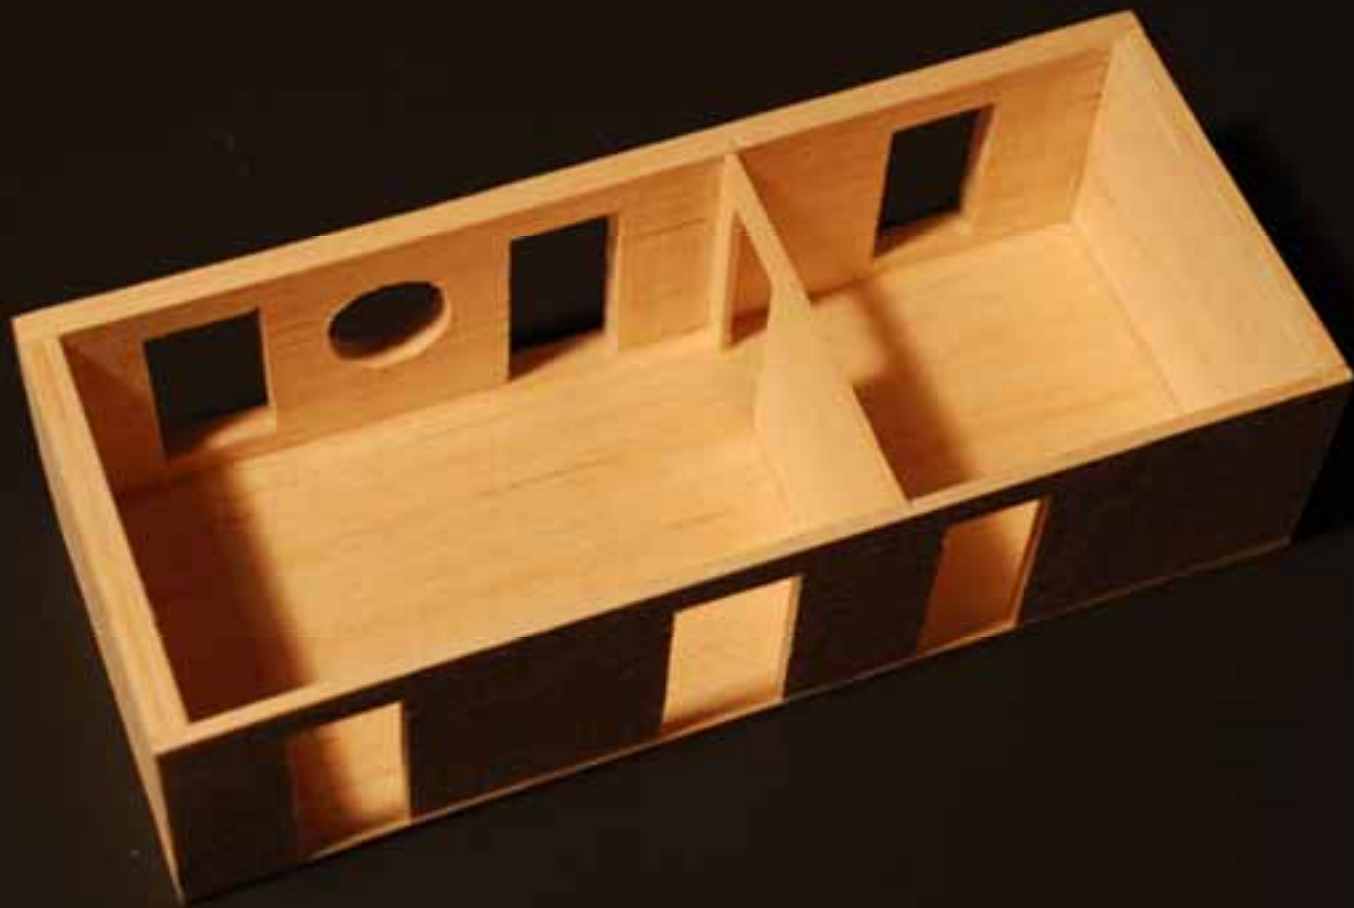

- plumber
